4X4 WORLD EXPLORER IS A GO!

23 February 2009

4x4 World Explorer Sdn Bhd (World Explorer) will be leading an adventurous group of 25 Malaysians and 5 foreigners with 13 fully equipped 4x4 vehicles. This 9,000-kilometre expedition will traverse seven countries, Costa Rica, Nicaragua, Honduras, Guatemala, Belize, Mexico and USA taking participants through some exhilarating and breathtaking terrain that includes mountain ranges, rainforests, lowlands and super highways.

The World Explorer Series is an adventurous programme attempting to circumnavigate the world between circa 2008 and 2012 in suitably modified 4x4 vehicles. The entire series comprises of 6 different expedition regions: The Americas, Asia, Europe, Africa, Middle East and South East Asia.

This expedition to Central America & Mexico was jointly launched by H.E. Jorge Alberto Lozoya, (Ambassador of Mexico), Datuk Hj. Mohd Nor Bin Hj. Atan (The Undersecretary of Americas Division at the Ministry of Foreign Affairs) and the organizing committee from 4x4 World Explorer.

The adventure will start from San Jose, the capital of Costa Rica into the heart of Central America, then onto the huge expanse of Mexico, before crossing over to San Diego, California, and onto its final destination in Los Angeles. Rolling out on 29th April 2009, this expedition will take 47 days and is in fact the first in its 15-year history of organising expeditions.

this short survey!

Central America & Mexico boast a rich blend of cultures, a mosaic of people, languages and timeless connections between past and present. The expedition aims to expose this world to like-minded adventurers from behind-the-wheel in convoy.

All participants not only have the opportunity to experience the diverse terrain and climate but to actually explore at close hand the region's culture and resonant history.

The next among the World Explorer Series – Part III – will start from Los Angeles to discover the southern and mid west states. The expedition will then journey northwards through beautiful British Columbia and into Yukon Territory in Canada. It will eventually reach Alaska before returning southwards along the Pacific Coast to Washington (USA), Oregon and California, thus concluding the expedition in San Francisco that wraps up the “Americas” sector of the World Explorer Series, while the “Asian” sector begins.

This life changing expedition to Central America & Mexico is available at a package price of RM46,000 for a round trip of boundless experience. 4x4 World Explorer will organize the routes, shipment of vehicles, border crossing, on the ground support including mechanical and medical back up, accommodation (sometimes camping in style), most meals and side excursion tours.

Shorter sectors are available for participants who could not afford the luxury of time, provided adequate time is given to make necessary arrangements. For adventures who do not have their own 4x4 vehicles, they can still join the expedition on a “hop in” basis; as 4x4 World Explorer has three vehicles for the purpose.

HEALTH PROBLEMS:
Migraine Headaches Cured
The Tinnitus Cure (Ringing Ear)
No More Heart attacks
Reversing Heart Disease
2-year Joint Pains Cured
Allergic Rhinitis Cured
